

DECLARATION OF EMERGENCY PROCUREMENT

The Middle Rio Grande Conservancy District, hereby notifies of the conduction of an "Emergency Procurement" pursuant to § 13-1-127 NMSA 1978

The emergency procurement method (NMSA 1978, Section 13-1-127 may only be used when there exists a threat to public health, welfare, safety or property requiring procurement under emergency conditions. The existence of the emergency condition creates an immediate and serious need for services, construction or items of tangible personal property that cannot be met through normal procurement methods and the lack of which would seriously threaten:

1. The functioning of government;
2. The preservation or protection of property;
3. or the health or safety of any person

POSTING DATE: June 5, 2019

DESCRIPTION OF SERVICES OR TANGIBLE PERSONAL PROPERTY:

The Purpose of this project is to expedite contract services to haul rock material to the Middle Rio Grande Conservancy District (MRGCD) Albuquerque and Belen Field Division for levee repairs along the Rio Grande.

PROJECT BACKGROUND/DESCRIPTION:

The Middle Valley has encountered severe wind storms and rain that has caused a very large cottonwood to uproot and fall across a community ditch landing directly on top of a private owner's wall and into the property causing damage. The down tree is impacting the District's ability to convey irrigation water downstream, and has also been deemed as a hazard to the public and residents of the property, and must be removed as soon as possible. Also because this location on the Griegos Acequia at station 43+75± on Map 31 does not have sufficient right-of-way, and the majority of this tree is draped over on top of a wall and into the property, the District will contract with the first available Professional Tree Removal Contractor and Crane Service to carefully remove this tree to prevent personal harm and further liability.

TERM OF CONTRACT: Six (6) Months

AMOUNT: \$15,000 - \$20,000

AGENCY APPROVAL BY:

Date: June 5, 2019

MRGCD Chief Engineer
